### Organization Profile/Description

Sofia Health is an online marketplace connecting consumers directly to health and wellness professionals.

Providers on Sofia Health receive a turn-key business that increases their visibility to potential clients, making it easier for customers to find, book, and pay for an appointment.

With Sofia Health, providers can list services, sell products, set availability, send intake forms, accept payments, and manage all appointments within our proprietary scheduling system.

Our scheduling system provides up to the minute appointment availability, eliminating the back and forth providers often experience when trying to schedule multiple clients and ensuring all clients receive the personalized care they deserve.

Our goal is to cut the friction between health and wellness providers and clients. So while the platform addresses business needs for professionals, it also makes it easy for the customer to find their ideal professional.

### HEALCon Special
